

To-Do List:

BEFORE YOU GET YOUR CHILD VACCINATED

1. Google "Autism Congressional Hearing" and watch the 6 minute Video.
2. Read each Vaccine's Manufacturer Package Insert for Reactions and Contraindications.
3. Go to <https://vaers.hhs.gov> (Vaccine Adverse Event Reporting System) to view the number of reported reactions and payouts (\$3.8 Billion)
4. Google #Hearthiswell and watch thousands of parents share their stories of their vaccine injured kids.
5. Research the MTHFR genetic mutation (this impairs detoxification).
6. Research Tylenol/Glutathione
7. Google "Vaccine Ingredients": thimersol, msg, aborted fetal cells, formaldehyde, monkey kidney cells, glyphosate, & more.
8. Ask your doctor to see the study of the cumulative effect of the CDC vaccine schedule (the study doesn't exist).
9. Watch the movies: Vaxxed, The Greater Good, Genetic Roulette, Bought Movie, Vaccines Revealed
10. Check out the website www.bless.com.
11. Ask a parent of a vaccine injured child what they would do differently.
12. Watch my video about the Hep B Package insert:
<http://elaineshtein.com/video-gone-viral-hep-b-vaccine-package-insert/>
13. Check out my resource: <http://elaineshtein.com/vaccines-101-where-to-start/>

Elaine Shtein is a wife, mother, educator, and medical freedom health advocate in San Jose. Her son, Jackson's spiral into "Autism," aka vaccine injury, at 15 months sparked her quest to research vaccines, toxicity, and empower parents to research for themselves. To connect with Elaine:
